

WE ARE LOOKING FOR TALENT

We are looking for passionate freelance 3D artist, who wants to create high-quality 3d game-ready content for immersive real-time experiences and virtual worlds.

Here at SQUAREBYTES you are creating the future of real estate walk-throughs and architectural visualization. You get access to the newest technologies and we offer you a space to learn and improve.

Join our team, be a part of our small family and let us change the world together, either online or offline.

[Freelancer] Experienced 3d artist for game-ready 3d content

Must-Have

- Strong modeling and texturing skills required for high- mid- and low poly 3D assets (focus on creating urban areas, buildings, environments, interiors, foliage and more) with a high level of realism for 3d real-time applications
- Excellent knowledge of 3D tools 3ds Max (or Maya, Blender)
- Excellent knowledge of 2D tools Photoshop (or Gimp)
- Minimum 4-years experience with Unreal Engine 4 with strong technical understanding of content optimization, lighting setup (static and dynamic) and material setup
- Ability to rework existing geometry and textures based on our standards

- Superior eye for lighting, color, composition, and detail
- Ability to work within memory and performance constraints while maintaining high visual quality
- Ability to juggle multiple projects simultaneously
- Ability to complete tasks within production schedules and deadlines in an organized manner
- Openness to guidance and reviews from both creative and technical supervisors

Nice-to-Have

- Ability to read and interpret architectural plans / blueprints
- Experience in Offline-Renderers like Vray, Arnold, Corona, etc.
- Experience in CAD Modeling (e.g.: Revit, Rhinio, AutoCAD or ArchiCAD)
- Experience in procedural modeling tools like Houdini
- Experience in texture creation tools like Substance / Quixes Suites
- Knowledge of Unreal's "Blueprint"-Visual-Scripting System
- Experienced with virtual and augmented reality applications
- Confident with version control systems (Git LFS)

Soft Skills

- Operational readiness, client focus and a high-quality awareness
- Analytical intellectual power and problem-solving skills
- Self-reliant, structured and function with discernment
- Team spirit and commitment
- Fluent in spoken and written English
